Examiner's Statement of Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: claims 27 and 37 are allowable for setting forth a punch for cutting a hole in a workpiece comprising a punch body, at least one piercing portion, at least one cutting portion and a pair of projections extending from a punch body. The pair of projections extends further away from the punch body than the at least one piercing portion and enters a pilot hole of the workpiece prior the at least one piercing portion piercing into the workpiece to center the punch body with the pilot hole. For example, Kandarian (4,830,548) teaches a punch substantially as claimed except for a pair of projections. Kandarian teaches a one-piece projection 20c instead of a pair of projections. Robinson (3,683,499) teaches a punch substantially as claimed except for a pair of projections. Robinson teaches a one-piece projection having a bore 35. The projection is shorter than a pair of piercing portions (33a, 33b); therefore, it cannot enter a pilot hole of a workpiece prior the at least one piercing portion (33a, 33b) piercing into the workpiece to center the punch body with the pilot hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
